

NEW

28 mm Lightweight 1881 PET Closure

Introducing South Africa's lightest CSD closure. Reduce your carbon footprint by 21% today!

The new 28 mm PET closure is 21% lighter for a significantly reduced carbon footprint. The closure is compression moulded for optimised energy efficiency. Once opened, the tamper evidence band remains securely attached to the bottle to reduce littering.

Closures available with a wide range of matching preforms and PET bottles from our branches located nationwide.

28 mm Lightweight 1881 PET Closure

Key Benefits:

- 21% lighter for reduced carbon footprint
- Erucamide-free to eliminate risk of tainting
- 100% Recyclable
- Compression moulded for energy efficiency
- 100% camera inspection for quality and consistency
- Impactful decoration with embossing and print
- Improved visual tamper evidence
- Fits all 1881 neck finishes
- No compromise in CO₂ retention.
- Widely available throughout Southern Africa

Upon opening, the tamper band drops down to make tampering more visible. The tamper band remains securely attached to the bottle to reduce littering.

Manufactured in internationally FSSC food safety certified plant using fully traceable raw materials that comply with:

- EU Framework Regulation 1935/2004
- GMP Regulation 2023/2006
- EU Regulation 10/2011
